

I become
stronger
when i
fight
more
villians

NEW HERO:-
FACTORIAL
MAN

MY ABILITY:-

MY POWERS INCREASE BY A FACTORIAL OF THE NUMBER OF ENEMIES IM FIGHTING.

boom!!

SUPER NOTE:-

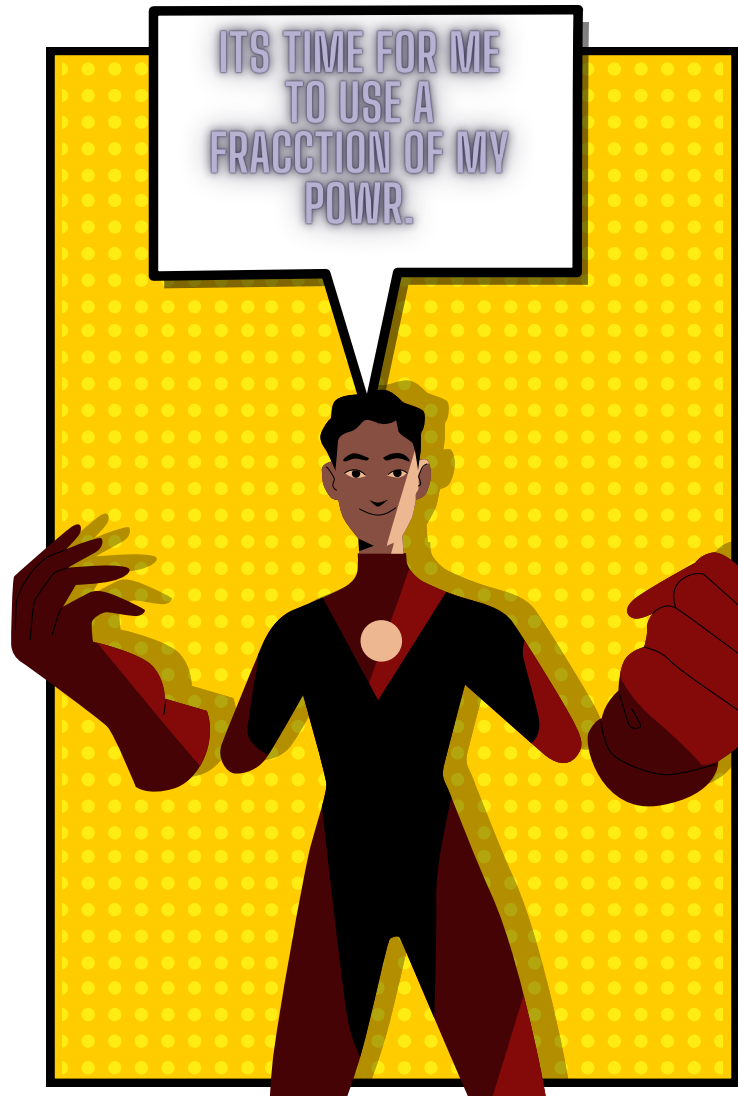

You might be wondering how to calculate the factorial,
It is quite simple.

let the number of villain's be N.

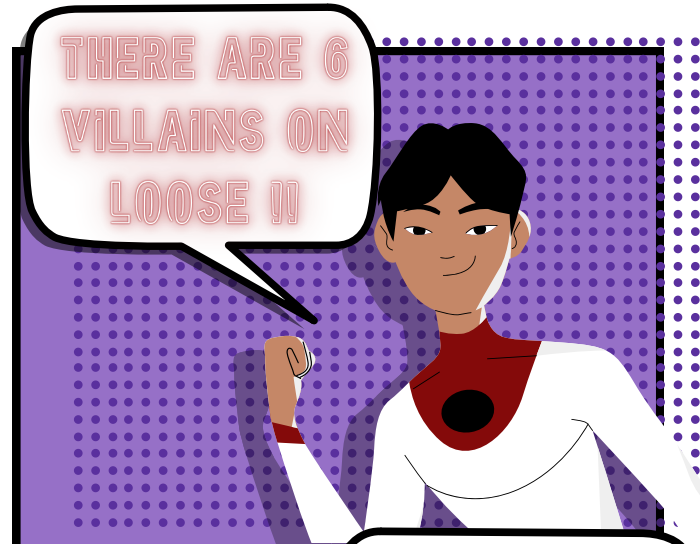

the factorial is gives by:-

```
for(i = 0 ;i < n ; i++)  
{ power=power * i ; }
```

So if i fight 4 villain's my power increases by $1*2*3*4$ times, i.e, 24 times!!!.

THE GREAT SUPERHERO

lets go guys!!
